缝制范围：300x200mm

冲孔机（三冲头）

HOLE PUNCHING SEWING MACHINE(THREE PUNCHING HEADS)

传统冲孔机是重型机械，比较笨重，不方便移动，且不好打板；新型的冲孔机体积小，重量轻，方便移动，可以跟开发室直接对接，共用花样机模板，编程方便。

Traditional hole punching machine is heavy machine, not easy to be moved, not easy to edited, new type of hole punching machine has small volume , light in weight , easy to be moved, can be connected with researching and development working room, common use the same mould, easy to be edited.

规格

SPECIFICATIONS

冲孔范围：标准圆型（1.2-3.8）

各种异型规格根据需要可定制。

规格：最高冲孔速度1000rpm

数据存储方式：USB(可任意编辑缝纫图案)

电源：单相220V

气压：0.5Mpa 1.8L/min

Hole punching area, Circle (standard 1.2-3.8)
All kinds of standards can be made base on requirements.

Specification : the highest punching speed 1000rpm

Data save :USB(can edit any pattern)

Power supply :single phase 220v

Air pressure: 0.5 Mpa1.8L/min
